BRITISH FORCES PURSUING ENEMY REACH THE RAILWAY LINE TO THE EAST OF LENS

Kaiser's Forces Lose Heavily in Prisoners in Operations to the North of St. Quentin; Allied Wedge Penetrates to Sequehart.

WHOLE BELGIAN COAST MENACED BY THE ALLIES

LONDON, Oct. 4.—British forces pursuing the retreating Germans in the Lens region have reached the railway east of Lens, Field Marshal Haig announced in his official statement today. To the southeast the British have made progress between Oppy and Mericourt.

German forces last night delivered counter attacks on Gony and LeCatelet, midway between Cambrai and St. Quentin. Field Marshal Haig announced today that the enemy's assaults had been beaten off.

More than 4,000 prisoners were taken yesterday by the British in their operations north of St. Quentin. The point of the British wedge in the region north of St. Quentin had been pushed at the end of yesterday's fighting to the high ground a mile northeast of Sequehart. The British are holding this ground, having repulsed a counter attack. As a further result of the retreat the enemy is now in peril of losing the Belgian coast. Should the Allies succeed in forcing their way through the gap between Ostend and Lille it would mean disaster for the Germans. General Ludendorff no doubt realizes it would be difficult to resist indefinitely the growing strength of the Allies in Flanders.

GERMANY THROWING IN RESERVES TO SAVE DAY.

PARIS, Oct. 4.—Germany is now throwing in general reserves into the battle on the St. Quentin front. This accounts for the stiffening resistance there and also along the German left flank and marks the beginning of the last phase of the great battle.

British armies commanded by General Byng and General Rawlinson continue to press the enemy hard. They have captured LeCatelet, General Debeney, east of St. Quentin, is slowly pushing the Germans back towards the upper Oise valley. General Berthelot is continuing his advance north of Rheims and has now occupied the whole Alsace line from Vailly to Berry-au-Bac.

Principal interest along the front to the east centers about the operations conducted by General Gouraud in the Champagne sector. Re-enforced by the Americans General Gouraud has pushed forward until he is now within six miles of Verdun junction, a base of great importance and is 25 miles from the great railroad connecting the German army with Germany. He has added another 3,000 to the 12,000 prisoners taken September 26.

By Associated Press. AMERICAN HEADQUARTERS IN FRANCE, Oct. 4.—(Reuter's)—When German forces advanced on Tuesday in an attempt to capture Apremont on the front northwest of Verdun American tanks suddenly emerged from the town in all directions. LLOYD J. SHAW IS LOCATED IN HUN HOSPITAL

Is Last of Missing Medical Detachment Members to Be Heard From.

RED CROSS SENDS NEWS

Whether Wounded or Engaged in Hospital Work is not indicated in Message Received by Sister, Mrs. Charles T. Giles; General Relief Felt Here.

After weeks of delay and uncertainty official word has come from Private Lloyd J. Shaw, member of the Medical Detachment of the 110th Infantry, who had been missing since the day the Germans began their disastrous drive on the Marne in July.

A message received last evening by Mrs. Charles T. Giles, sister of Private Shaw, through the Red Cross, stated that he is in a German hospital at Metz, which city for several days has been under fire of the American guns. This was the first definite news that had been received and it caused a general feeling of relief.

Whether Lloyd is wounded or is serving as an attendant in a German hospital is in doubt. His relatives incline somewhat to the belief that because of his ability in giving aid to the wounded he has been put to work in that line.

Lloyd is the last of the four missing boys of the Medical Detachment to be reported within the German lines. First came news of Walter S. Bixler, who was later reported by letter to have been slightly wounded. Next came news of the safety of Frank Beatty of Fairchance, and Frank Freeman, son of Mr. and Mrs. George Freeman, of the West Side.

DEATH IN ACTION OF LIEUT. STEVENSON IS FINALLY CONFIRMED

Officer of Company E, Mount Pleasant, Fell on July 29, war Department Message Says.

Special to The Courier. MOUNT PLEASANT, Oct. 4.—Official confirmation of the reported death in action of Lieutenant William C. Stevenson, of Company E, 110th Infantry, was received yesterday in a telegram from the War Department to his wife, who was Miss Ardie Doncaster, to whom he was married last spring. The message stated he fell on July 29. Previously reports had been received by mail, several letters referring to his death on the field of battle, but the War Department was without information and the young wife lived in hope that the reports would in the end prove unfounded.

Lieutenant Stevenson began in the ranks of Company E and worked his way to a commission, first lieutenant. He was with the command on the Mexican border. In private life Lieutenant Stevenson was associated with his father, S. C. Stevenson, in the real estate business, the firm being known as S. C. Stevenson & Son. Mr. Stevenson was a trustee of the Re-Union Presbyterian church and a teacher in the Sunday school. He was a member of the Nemacolin club.

In response to the call for teachers Mrs. Stevenson has been engaged in teaching.

CAMPBELL'S TEAM LEADS

Connellsville went over the top in the Fourth Liberty Loan drive at noon today \$680,200 strong. Reports of captains of canvassing teams after the noon lunch at the Masonic Temple showed that the quota has been exceeded by \$126,150. Included with Connellsville in going over the top are South Connellsville and Connellville township. The meeting, which was one of the most enthusiastic

FOURTH LOAN TOTAL AT NOON \$126,150 IN EXCESS OF THE QUOTA		
Reports by the team captains at the Masonic Temple today showed a total of \$680,200, which places this city over the top by \$126,150. The reports follow:		
Captains		Subs. Amount
Campbell	442	\$158,050
Dowds	395	155,050
Wright	463	124,500
Kenney	458	63,300
Ashe	491	61,850
Bixler	271	38,250
Hooper	234	34,450
Davis	209	20,900
Trader	100	11,750
Lacke	46	9,000
Strange	46	2,150
Total	3,154	\$680,200

held this week, ended with the work of all teams still determined to go ahead and gather in another million of dollars to help fill the quota of the Connellsville districts, which altogether is \$1,607,500. Subscriptions reported at the dinner showed 3,154 persons owning bonds.

It has taken only four full days of canvassing by the business men of this city to raise the quota of \$553,750. Many of the wards have reached the total assigned to them and some have reported so much more than their quotas that deficiencies in other wards are covered. Connellsville township has not yet reached the quota of \$58,300 assigned it but enough was raised in this city to cover the difference and make it possible to reach the combined total of \$553,750 for Connellsville, South Connellsville and the township.

It was announced at noon today that reports from other territory in the Connellsville district, including Bullsikin and Dunbar townships, were not encouraging. Although canvassers are hard at work in these sections, the credit for the bonds is not coming to Connellsville as they are being taken through banks at other places.

"Every individual has to become more earnest in this thing and subscribe heavier to help put it over," said E. T. Norton, chairman of the local executive committee. Mr. Norton said that as the income of the United States was figured at \$52,000,000,000 a year, the country was asking in this loan for just six weeks' income. "The question of 'what should I give' has often been asked me," he said. "I should say that every man ought to purchase bonds to the amount of his six weeks' income."

Rev. J. L. Proudt, speaking at the dinner yesterday, said he believed if a person could take out a \$100 bond and pay for it in cash, that that person should subscribe for \$500 in bonds and pay for them in installments. James Strang, captain of the colored canvassing team, immediately increased his subscription to the \$500 mark and it is suggested by the executive committee that this would be a good lead for others to follow. County headquarters reports a

TEACHER IN HIGH SCHOOL IS FIRST VICTIM HERE; NO ORDER TO CLOSE AMUSEMENT HOUSES

COUNTY TO BE WELL REPRESENTED AT S. S. CONVENTION

Rev. W. B. Parnell, Head of Fayette Organization, Asks Every Pastor and Superintendent to Attend.

What portends to be the greatest gathering of Sunday school leaders ever held in Pennsylvania will open next Wednesday morning at 10 o'clock at Johnstown and continue Thursday and Friday.

The best instructors in Bible study and school of methods in America have been secured. Sunday school workers realize the problem that the approaching victory puts upon the church to lay anew the foundation upon which to build the new era. This assures the Pennsylvania Sunday School association an overflow gathering of earnest men and women seeking new tools best adapted to meet the unprecedented requirements of this the testing year.

The following are some of the leaders that will appear upon the program. Rev. Geo. Calhoun Moore, D. D. of Brooklyn, N. Y., who is a leader with a message for these critical days; John L. Alexander, Chicago; Dr. W. C. Chalmers, Philadelphia; Miss Nanette Lee Frayer, Louisville, Ky.; Prof. L. B. Edgar, Columbus, Ohio. Howard Crist Geo. East Orange, N. J., and Dr. Gustavus, of Chicago. The Akeley brothers will present new possibilities in Sunday school music.

The theme of the convention is "Christian Unity and Religious Education." The convention will therefore be educational, inspirational and patriotic. The conditions of the times, which present a tremendous obligation to the church warrants every Sunday school in the county sending their pastor and superintendent to Johnstown next week.

Detailed information can be secured by letter or telephone the president of the Fayette county organization, Rev. W. B. Parnell, of Dawson.

GARBAGE COLLECTION TURNED OVER TO CHAS. WORK, OF EAST PARK

Complete List of Patrons Under Municipal Disposal is Awarded to the New "Company."

Collection of garbage in the city was turned over yesterday by Dr. C. W. Utis to Charles Work, of East Park, who today took hold of the work, putting three teams into service. Work's headquarters will be at his home in Franklin avenue. The new collector takes over the entire list of patrons on the city's books. During the summer months the gross income was about \$725 monthly. With the coming of fall it was expected this would be reduced about \$150 by the dropping out of those who dispose of their own garbage in the water. There is also some loss from those who fail to pay.

There will be no change in rates, Dr. Utis announced. He asks the co-operation of the public and feels sure that with that aid Work will be able to make good. Anyone wanting service may get in touch with the new "garbage company" by telephone. Work is a cripple, well known about town.

MASTER NUMBERS

Miss Anne Donnelly, Domestic Science Teacher, Down With Malady.

ONE DEATH AT OHIO PYLE

Like in the Average Case the Fatality There is Due to Complication With Pneumonia; Marklefon Hospital is Placed Under Quarantine.

No official notice had been received late today in Connellsville regarding the order of the State Department of Health issued last night providing for the closing forthwith of every public place of amusement and saloon in Pennsylvania in order to prevent the spread of Spanish influenza. Hence the order had not become effective here.

Besides saloons, the order embraces the movie and vaudeville theatres, pool rooms, dance halls and "the like." Whether schools and churches will be closed is left to the local authorities.

The order from Harrisburg requires that all places mentioned be closed today, Friday. Spanish influenza has invaded Connellsville. Miss Anne Donnelly, assistant in the domestic science department of the high school, is ill and the ailment has been pronounced the malady which has been sweeping the country, affecting principally the army cantonments.

Miss Donnelly was taken ill Tuesday and compelled to give up her work. She was somewhat improved today, according to information given out at the home of her parents, Mr. and Mrs. T. R. Donnelly, West Peach street.

So far as is known this is the only case reported. One death and 15 other cases at Ohio Pyle have been reported. The family of Samuel Shipley has been sorely afflicted with the malady. One child died of pneumonia contributory to the illness, and the father and four other children are suffering from influenza.

While there are no cases at the United States General hospital a Marklefon institution has been quarantined so as to take all necessary precaution to keep the soldiers from contracting the malady.

CALL ISSUED FOR NURSES TO HELP IN FIGHTING PLAGUE

A telegram has been received by J. Fred Kurtz, chairman of the Fayette county chapter of the American Red Cross, from the division manager of the National Red Cross who says the organization has been requested by the Bureau of Health to mobilize and have available all nurses necessary to prevent the spread of the Spanish influenza epidemic. The nurses are asked to sign up for either home town work or assignment anywhere in the district.

All Red Cross chapters are asking every graduate nurse, undergraduate nurses and nurses' aids to report to the headquarters to enroll for emergency service. The services are requested to be volunteered, although salaries will be paid if necessary. Graduate nurses will be paid \$75 a month and living expenses. Others will receive between \$30 and \$50 per month. The local chapter will not assign a nurse without first consulting the division director of nurses. The nurses will be divided into classes of five, made up of one graduate nurse and four practical nurses for aides. All nurses are urged to enroll immediately at the Red Cross headquarters, and to indicate whether they desire to volunteer their services or be paid for them. Quick action on the part of the nurses in enrolling is needed to check the epidemic.

On a call for nurses made earlier this week the Fayette county chapter sent 10 graduate nurses, mostly from Liontown, to Philadelphia within 24 hours, where they were reassigned. Nine nurses of the Liontown hospital, among them being Miss Nellie Fennell, of this city, are adding in the fight of the Spanish influenza epidemic in American army camps. The band of nurses left Wednesday morning for Philadelphia following the receipt of an emergency call from the Philadelphia Red Cross headquarters. There they were assigned to camps.

Mrs. Wiley accompanied the ladies to Connelville and will visit her sister, Mrs. Dick Sherrick of the West Side, for a few days.

A sweater knit and donated by Misses Katherine Struble and Rosalie Guyan of Sycamore street, brought a sum of \$53.39 for the Red Cross, the proceeds being turned over today by the young women to the local chapter. Miss Guyan and Miss Struble furnished the yarn and after they had completed the sweater tickets entitling the holder to a chance on the garment were disposed of, and last night the drawing took place at the home of J. E. Struble in Sycamore street. Mrs. Lydia Fisher of South Connelville was the lucky winner of the sweater, which was beautifully made.

About ten members of the Silver Thimble club attended the opening meeting of the club for the current season held yesterday afternoon at the home of Mrs. Joseph Rilling in West Cedar avenue. The afternoon was pleasantly spent at fancywork and knitting. Delicious refreshments were served. Mrs. Charles F. Hirst will entertain the club Wednesday afternoon October 16th at her home in Will's road.

The Philathea class of the Christian Sunday school is planning for a get together meeting on Thursday, October 10th.

The next meeting will be held in the church and will be an open one, with Mrs. John Fuehrer hostess.

There will be a cottage prayer service tonight at the home of Mrs. Willis Kerr, Cedar avenue.

In reporting promotion day exercises at the Christian church on Sunday the name of Mrs. Mary J. Brown, superintendent of the beginners department, was unintentionally omitted.

The meeting was opened with the entire society singing "America." Many members were present and also several guests. After the lunch was served Rev. I. G. Nace gave several vocal selections. stump in subscriptions and the compilation yesterday showed only \$2,938.300 subscribed which leaves the goal of more than \$7,000,000 a long way from being attained. Workers all over the county are being urged to put more energy into the loan and buyers are asked to make their subscriptions heavier.

The canvassers have their experiences. Some are pleasant, some otherwise. A solicitor who canvassed a well-known man who is minus both legs received a negative answer but the experience was inspiring. The cripple said he had subscribed to the Third Loan, using money that had been saved for a new leg. He would have been glad to invest in the Fourth, he said, had it been possible for him to do so, but necessity of better means of locomotion demanded that he get the new leg.

The same day canvassers came to a certain plant the proprietor of which invited them to "keep stepping." They did go for the time, but later an augmented force "stepped back" and the man came across, it is said.

One of the teams, part of whose territory includes a farming community near the city, solicited a farmer who hesitated to subscribe because improvements he had made had taken all his ready money and he was somewhat fearful that the proceeds of his crops might not be sufficient to take care of a bond subscription. "I would really have to borrow the money to pay for the bond," he said.

"If that is all that stands in the way, we will endorse a note for you," the solicitors volunteered.

"All right," the farmer said, and signed a subscription blank.

Persons are not being allowed to "get by" with the statement that they are going to take bonds through some other agency than the solicitor by whom they are approached. They are pressed for particulars as to where they expect to place their subscriptions and careful note is made of it. The cards are then turned over to the person or agency named and they will see to it that the promise to the solicitor is made good.

CORNELL SANTMYER WRITES OF MEETING MARCH SLOAN

Writing to James B. Stader, Cornell Santmyer, a member of the Supply Company of the 110th Regiment in France says "When you see Mike Pryce, tell him for me that that night he made the speech to the shirt-tail parade and said we had them halfway through Belgium, he was going too fast. They are going pretty fast for we could hardly keep up with the supply train—but not as fast as he said. "Believe me we did sure give Jerry some reception and have kept him so busy the last two months that he is almost ready to cash in. Talk about a thrill! You should go over the top. Wow! but it is great, if you get back. Sometimes, you know, a fellow doesn't get back. But that happens in all wars, I suppose.

"Corporal Johns is in a hospital. I had a letter from him a few days ago. He said the guy who wrote the song, 'I Don't Want to Get Well,' was a wise bird. He is getting along nicely and expects to be back with the company soon.

"Most of our old fellows are gone, but the few that are left will sure average the missing ones."

CARL KRINER GASED.

WM. MCLELLAN WOUNDED.

Carl Kriner, member of Company D, 110th Infantry, was gassed but has recovered and is with the command again, according to a letter received by Miss Emma Drewes, a friend of Layton. He was in a hospital for a few days, he says in a letter dated September 6. His mixup with the Hun came on August 16. Previously Kriner had been reported missing. "I got some Huns that didn't need to be taken to the hospital," his letter said. "They stayed on the field." Kriner says that William Mullin, member of Company D, was wounded in action and is in a hospital, but is getting along finely. "While the boys are all happy and having a good time," says Kriner, "we all long for a sight of the Statue of Liberty and the old home town of Connelville." He thinks their hopes will be gratified soon, as the enemy is moving rapidly rearward.

CAMP LIFE WILL MAKE MAN OF YOU.

"Camp life is fine and will make a man of you if you can stand it, but if you can't stand it it is bound to make a dud one of you," says Wallace Ennis of Connelville in a letter to The Courier. He indicates that he will be in the "man" class. "The man that does not believe in being happy has no place at Camp Lee," he continues, "for, believe me, we have a royal time. The first week is hard, the second week fine. We are ready to sail in a few days."

ANOTHER COMPANY E SOLDIER MISSING.

Mr. and Mrs. Joseph Perko, of 326 Washington street, Mount Pleasant, this morning received a telegram from the War Department stating that their son, Corporal William Perko, has been missing in action since August 28. The telegram stated that any further information would be wired them. Corporal Perko is a member of Company E, of Mount Pleasant.

MEMBER OF CO. M DIES OF GAS POISON.

Daniel L. Jones of Latrobe, a member of Company M, 110th Infantry, who was passed during the battle of the Marne, died September 18th, according to a telegram received by relatives of the soldier Thursday afternoon from the War Department.

DR. D. A. WALKER LIVES IN FRANCE.

Dr. D. A. Walker, of Hecla, has arrived safely in France, according to word received by relatives. He is a brother-in-law of A. C. Stickel.

20 YEARS YOUNGER ASSERTS WOMAN DUE TO TANLAC

Marie Scholz Tells of Remarkable Recovery Through Using Master Medicine.

"I feel twenty years younger, and sleep like a log when I go to bed," said Marie Scholz, of Grantham street, North Side, Pittsburgh, Pa. "since I began to take Tanlac."

"I had suffered for a long time with rheumatism, gas in my stomach, shortness of breath and my bowels were always giving me trouble. "I often went for days at a time without sleeping, because of my terrible nervous condition. "So I got a bottle. I had no idea I would get such quick relief. After I had taken about half a bottle, the rheumatic pains left my limbs. My stomach got so good that I could eat my meals and never feel bad afterward. My bowels got regular. When I would lie down at night, my head would hardly touch the pillow until I would be fast asleep. When I awakened in the morning, I felt rested and could hardly believe it was myself. "Since I have been taking Tanlac I have not been troubled with gas pressing up against my heart. I eat what I please, I go out among the neighbors and visit them and my friends, and I want to go to a theatre I go and have a nice time. I never am afraid of being sick any more."

Tanlac is now sold in Connelville exclusively by the Connelville Drug Co., Neighly's Pharmacy, and F. H. Harmering, where the premier preparation can be had.—Adv.

CORNELL SANTMYER WRITES OF MEETING MARCH SLOAN

Writing to James B. Stader, Cornell Santmyer, a member of the Supply Company of the 110th Regiment in France says "When you see Mike Pryce, tell him for me that that night he made the speech to the shirt-tail parade and said we had them halfway through Belgium, he was going too fast. They are going pretty fast for we could hardly keep up with the supply train—but not as fast as he said. "At present writing they are on the go and going some, and all the boys from Connelville I have seen lately are full of pep." "About three weeks ago at 12:30 A. M. we were advancing and it was raining some. As the road was being shelled we had to stay over for the night. I looked for a dry spot and crawled into a house. Next morning at 5 A. M. as I was crawling out I ran into March Sloan and you know how he says 'How do you do.'"

GUY EMPY HAS NOTHING ON BOYS OF COMPANY D.

"Thrilled as Americans were by the recital of the experiences of Guy Empey, author of 'Over the Top,' the things he did and saw others do are commonplace to the boys of Company D, as one may judge from a letter written by Corporal Joseph W. Easton, Jr., to his father and mother, Mr. and Mrs. Joseph W. Easton of Trevor street. "I have just come back from the front for a slight rest," wrote Corporal Easton, under date of September 2, "and to get cleaned up. "NONE TOO GOOD."

To the everlasting credit of the manhood of America it is a fact that only a very small percentage of those called for military service have been unwilling to accept the place or duty assigned them, no matter how humble the rank or humdrum the task. A few whose natural repugnance to association with men who were not formerly of the same social station have inwardly rebelled at being placed on an equal footing, but on the whole there has been ready acquiescence in the rule of the Army that a soldier's worth is measured by the service he renders, not the rank he attains or the position he holds in civil life. With the donning of the khaki all distinctions that have previously separated men into classes have been leveled and the man alone is the factor that counts—not what or who he was before he became a soldier.

Considering from this point of view the marvelous readiness of the men of the Army to endure all the hardships and perils of the service, in order that the job they have in hand may be finished, the Stars and Stripes, the official newspaper of the soldiers of the American Expeditionary Forces, says:

"Greater love," says the Bible, "hath no man than this; that he lay down his life for his friend."

"The American private has shown a still greater love for his country. He has come 3,500 miles from home, amidst the glory and trappings of rank, prepared to give up his life—and something more—for the land he loves. He is giving up the comfort and ease and the dreams he knew at home for the long drudgery and monotony of training, not to speak of reveille and chow and inspection and stable and K. P. details—too numerous to mention.

"All this is but the prelude to the life of hardship he stands ready to make, and often makes, at the end of the road. He has the greatest job in the war, because his job entails the greatest sacrifice, and this is a war of service.

"An officer of considerably higher rank than a private saw a line of Yanks move to the attack, cheerful, nifty, on the job, as they headed for almost certain death into a machine gun nest. Later, he saw many of them come back, shot up, dripping blood and minus food and water for more than just a few hours. But, hoping or feeling, they returned from the attack as they went to it—cheerful and nifty without a whimper or complaint, only sorry they couldn't go on to the finish with their pals. They took nothing for their credit and they looked for no reward. They had merely done a job, and they didn't stop to figure that it was the biggest job of the Army. And the officer, looking on, said it all:

"No man in America is too good to be a private in the American Army."

The War is Not Finished;
It May Still be Lost

Philadelphia Ledger.

The Bulgarian breach in the wall has let a flood of light into the German mind. The Bulgarian government was in a position to know fairly well how things were going inside that carefully censored Teuton enclosure. It knew what the military failure in the west meant—something the German people have been fed falsehoods about to the limit of their official ears' bureau. There was nothing in the military situation in the Balkans to put Bulgaria out of the war if Germany had been winning in the west. It was the fact that Germany had already lost the war which caused the Bulgarian politicians to transfer their confidence to Mallinoff and his possible "pull" with the Entente. Bulgaria did not go out of the war because the Serbians menaced 'Skub, but because the Germans had ceased to menace Paris—and the Americans were coming, 5,000,000 strong.

Germany has just one hope today. It is that the Allies may prematurely count their chickens—and so fail to arrange for the hatching of a sufficiently numerous new brood. If Germany could trick and fool us into this fatal feeling of a "fait accompli," with the relaxation of effort that would inevitably accompany it, they might still win the only victory for which they yet hope—a victory of war-weariness on our part which would leave them with a share of their spoils.

The war is not finished. It may still be lost. We must keep it at harder than ever and so pile up such an obvious and overwhelming superiority on our side that Germany will not dare to face us in the spring. In that way we will save a million American lives, untold treasure, possibly years of murderous warfare. In that way only can we make certain of our ability to confer a just peace on the world, establish a firm League of Nations and bring in the reign of human brotherhood.

The method nearest our hand for showing that we realize that we must fight on, more furiously than before, is to buy Liberty Bonds. They were never so needed—they never promised such splendid dividends of an early victory and a permanent peace.

Neither is any citizen at home too good to be a worker in support of the Army. Service in some of the many forms in which it can be rendered is just as exact a measure of a worker at home as it is of a soldier in France. He does every job that comes to his hand without thought other than how it can best be done and with the determination to finish it as soon as possible. We must have the same conception of our duty and discharge it with the same fidelity, otherwise we will not be good enough to do something for those who are good enough to be privates in the Army.

Aviator Kenneth A. Reid has not yet had opportunity to display his prowess under enemy fire but he has shown such skill and courage in a battle with fire that a little thing like a scrap with a boche plane would be merely diverting exercise.

With the assistance of the Allies the German army has been all dressed up and it doesn't where to go first, but it is going somewhere and from several places at the same time.

The "Fid" threatens to stop the flow of certain draughts.

The destruction of the Austrian naval base at Durazzo and the warships in the harbor will lead to even the loss of the naval patrol boat Tampa.

The Scutdare auxiliary of the Red Cross is showing productive capacity, enabling it to become a chapter all by itself.

The submarine sinking of an American convey with all on board means just a little more pressure for Pershing boys on the western front. It might also mean a little more pressure on all the fronts here at home, particularly the Fourth Liberty bond front.

The Red Cross automobile drawing was a long drawn out affair and drawn a long way from home.

Germany will soon be afraid to go out in the dark night, and she is becoming very much alone, as you will find from checking up the list of her friends.

Liberty Loan Primer
Little Lessons in Finance.

Thousands of Americans experienced their first lesson in finance when they made their initial purchase of Liberty Bonds. To most of them a bond was a mystery, something sinister that smacked of frenzied finance and the seats of Mammon. Something of which they were doubtful and not a little afraid. To them, ordinarily, the last thing on earth in which they would think of investing.

But at close range it lost this forbidding aspect. It was pleasing to the eye, yellow-backed and crinkly as a new ten spot, caricatured and frescoed with all the embellishments of the engraver's art, and above all it bore the endorsement of the nation.

Mostly those who bought one of the earlier issues, bought another later on. So the education of the masses began. But it didn't end there.

Soon came along the sharper with his plausible stories of greater returns from industrial investment, from the development of natural resources, from the making of war munitions and the thousand and one things necessary in times like these.

And he traded them gaily colored and equally highly illuminated certificates of stock in wild-cat companies and fly-by-night ventures in exchange for their Liberty Bonds. And right speedily these certificates proved to be worthless and the promoters vanished into thin air. And this was the end of the second lesson.

Now the Liberty Bond investor is making his third degree. He is learning to hold on to his Liberty Bond like a hound pup to a hot batter cake. He is finding out that nothing on earth is a better investment, a safer buy, a more certain interest producer than a Liberty Bond—Uncle Sam's promise to pay.

And when he has learned this lesson better perfect, and abides by it, he will be doing Uncle Sam a service second only to his original act of purchase. For the longer one holds to his bond the better it will become, the less liable it will be to sell at a discount in the marts of Mammon, the greater will be its value.

And all these are lessons which Liberty Bond buyers will do well to ponder.

Read The Daily Courier every day.

STOP THE CASUALTY
LISTS—QUICKLY!

The men and money of America will help to do it.

Buy LIBERTY BONDS! Buy them now—Buy often—Buy to the limit of your means—and MORE. Go in debt for them—but BUY, and do your part to hasten the victory that will bring our boys home again.

Don't think about the money that will all come back to you with interest. Think about the brave young Americans who are fighting and suffering and DYING "over there" for Liberty.

Don't make EXCUSES—make SACRIFICES.

Special to The Courier.
SCOTSDALE, Oct. 4.—The business
men answered the call of the fuel ad-
ministrator and met at the city hall
on Wednesday evening to arrange a
uniform closing time for the stores
over town. John Raygor was chosen
chairman.

It was agreed that no stores shall
be opened until 10 o'clock, in accord-
ance with the request of the fuel ad-
ministration.

The majority of the men who at-
tended wished to close at 6 o'clock
and it was decided that a paper be
passed over town to be signed by all
stores who were willing to close at
that hour every evening except Satur-
day evening. Should the majority sign
notice will be sent the fuel administra-
tion and 6 o'clock will be the time of
closing.

The matter was talked over of dis-
playing placards, reading "This Store
is Patriotic. Buy Only from Those
Who Wish to Close."

in no sense a war play, there is not
a battle scene in it. The new pro-
duction combines the hopes and fears
and prayers of every woman who has
sent a man overseas. It tells the
story of a hero's waiting wife and
the strange deception practiced on
a draft board and what discovery
meant to everyone concerned. Re-
plete with strong situations and a
wonderful love story, "The Service
Star" is a capital play even if it were
not of extreme timeliness. The fact
that it embodies a plot of extreme
originality, and strikes a powerful
note of patriotic duty adds to the
success which is bound to come once
Madge Kennedy's admirers see her in
this dramatic production. Miss Ken-
nedy appears as Marilyn March, who
looks with envy upon the girls she
knows because every one of them has
a sweetheart at the front while
Marilyn has none. The girl con-
ceives a daring plot to overcome this
and when the country rings with the
news of the bravery of John Whit-
ney Marshall "over there" Marilyn
announces that the hero is her hus-
band, a secret marriage having been
performed before his departure. A
scene taken in the Red Cross work-
rooms of a town of Long Island,
gives ample evidence that all classes
of women are making themselves ex-
tremely useful for the worthy cause.
Clarence Oliver is seen in the sup-
port of Miss Kennedy. Mr. Oliver is
favorably known for his work on the
stage in "Officer 666." Monday Metro
will present "The Judgment Of."

ORPHEUM THEATRE.

"THE GUILTY ONE."—Beginning
today at the Orpheum theatre there
is playing one of the strongest photo-
plays of recent date. This is the A.
H. Woods production of "The Guilty
Man," directed by Irvin V. Willat
under the supervision of Thomas H.
Jace. The cast includes beautiful
Gloria Hope, Vivian Reed, William
Garwood, J. P. Lockney, Charles
French, Hal Cooley, John Stepping
and Hayward Mack.

"MY FOUR YEARS IN GER-
MANY."—Is it not a shame that the
world should have so been disturb-
ed; that peaceful men are compelled
to lie in mud and filth in the depth
of raw winter, shot at and stormed
at and shelled, waiting for a chance
to murder some other inoffensive
fellow creature? Why must the people
in old Poland die of hunger, not
finding dogs enough to eat in the
streets of Lemberg? The long lines
of broken peasants in Serbia and Rou-
mania; the population of Belgium
and Northern France torn from their
homes to work as slaves for the
Germans, the poor prisoners of war
starving in their huts or working in
factories and mines; the cries of the
old and the children wounded by
bombs from Zeppelins; the wails of
the mothers for their sons; the very
rustling of the air as the souls of
the 10 millions dead sweep to another
world—why must all these horrors
come upon a fair green earth, where
we believed that love and help and
friendship, genius, science and com-
merce, religion and civilization once
reigned? In the introduction to Am-
bassador James W. Gerard's remark-
able book, he eloquently asks
these questions which all the world
is interested in. In the big, remark-
able film production of the book, "My
Four Years in Germany," you will
find the answer, why the world is at
war, you will see unrolled before you
the whole history of German intrigue
and plot. The picture will be shown
at the Orpheum on Monday and Tues-
day.

There is no secret about Vinol. It
owes its success in such cases to beef

Special to The Courier.

MOUNT PLEASANT, Oct. 4.—Under the direction of the street committee of council William Lobingier, street commissioner, is grading and marking an entrance into West Vine street from North Church street. It was necessary to do considerable grading but with the shape that Mr. Lobingier has put the street in, it should be easy for trucks and teams to travel this street all winter. Complaints had been coming into council that persons living on this street were unable to get their winter coal in as there was no way for them to drive.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from
system before putting more
food into stomach.

Says inside-bathing makes any-
one look and feel clean,
sweet and refreshed.

Wash yourself on the inside before
breakfast like you do on the outside.
This is vastly more important because
the skin pores do not absorb impuri-
ties into the blood causing illness,
while the lower bowel pores do.

For every ounce of food and drink
taken into the stomach, nearly an
ounce of waste material must be car-
ried out of the body. If this waste
material is not eliminated day by day
it quickly ferments and generates
poisons, gases and toxins which are
absorbed or sucked into the blood
stream, through the lymph ducts
which should suck only nourishment
to sustain the body.

A splendid health measure is to
drink, before breakfast each day, a
glass of real hot water with a tea-
spoonful of limestone phosphate in it,
which is a harmless way to wash the
poisons, gases and toxins from the
stomach, liver and kidneys and bow-
els; thus cleansing, sweetening and
freshening the entire alimentary canal
before putting more food into the
stomach.

A quarter pound of limestone phos-
phate costs but very little at the drug
store but is sufficient to make anyone
an enthusiast on inside-bathing.—Adv.

A PITTSBURG LADY WAS RUN-DOWN DUE TO A BAD STOMACH

Mrs. A. Vogel, of 106 Holzer Street,
Gives Credit to Ten-Herbs for
Restoring Her Health.

"An attack of indigestion or dyspepsia are in themselves the simplest ailments imaginable," said the Ten-Herbs Man, "but if the truth were known they would be found to be even more dangerous than some of the most terrible fevers. They may be trifling, but they are a never-failing sign that the stomach is not performing its proper functions."

"When the stomach is not properly digesting the food, there is no limit to the way affections can spread to every organ of the body, producing intestinal poisoning, rheumatism, liver and kidney trouble, and many other distressing ailments."

"Ten-Herbs, the famous herbal stomach remedy, is invaluable in aiding such cases. It acts almost like a miracle, purifies the blood, causes the food to digest perfectly, and puts the entire system in a strong, healthy condition, and we are daily in receipt of signed statements from well known local people verifying this contention."

"Only the other day Mrs. A. Vogel, a popular Pittsburgh lady, residing at No. 106 Holzer street, gave the following:

"I have had trouble with my stomach for the past three years, was bloated with gas, could not digest my food, had headaches and was so nervous I could not sleep; my back pained me terribly, and I got in a badly run-down condition. I would have awful distress after eating any food. Since I have taken Ten-Herbs I am feeling fine, sleep well and am able to eat my meals and digest them. I feel stronger and better in every way."

Ten-Herbs is sold in Connelville at the Connelville Drug Co's. Store.

"Whoever knowingly violates or refuses to conform to Section 1 of this regulation will be subject to the penalties prescribed in the Food and Fuel Control Act."

LARGE SALARIES TO BE CUT NEXT SEASON

Baseball Stars Won't Get Huge Amounts for Services.

Fat Wartime Contracts Will Be Visible No More and Preference Will Be Given to Players Returning From War.

There will be a house cleaning in baseball next spring, if the game comes back then, but it may not be the kind of house cleaning that Dan Johnson prophesied. The present national commission may or may not be put in power again. There may be a new head to that commission; there may be a new leader of the National league, and there may even be a new leader of the American league. All these things are possible, but what is most probable of all is a reorganization and a grading of salaries.

The fat wartime contracts will be visible no more. Valiant athletes who drew from \$5,000 to \$8,000 while their clubs lost heavy money will be offered from \$2,500 to \$4,000. If there is any preference in awarding the big money, it will be shown to men returning from the war, as it is felt that they could not help their departure, and gave up large incomes cheerfully to serve the nation.

Superfluous agents, extra financial managers, etc., will be lost to view. Baseball will simply start in again and will try to rebuild its shattered fortunes along sane and economic lines. This comes unofficially, but none the less, correctly, through the office of the national commission.

Agents of the Arizona Copper league, which comprises the six Arizona cities of Bisbee, Prescott, Phoenix, Oakland, Jerome and Tombstone, are on their way east to grab big league players. Forty Pacific coast men have gone in with these six clubs, but the promoters want major league players. Their offer is blunt and direct.

Six dollars a day straight wages to copper miners, and the ball players will have to earn the money, working eight honest hours a day; \$5 extra to ball players with game Saturday and Sunday.

The jumps are mostly by automobile, and the population has gone wild over the game.

WHY KAHANAMOKU IS A DUKE

Champion Hawaiian Swimmer Has No Other Ducal Domain Than the Surf at Waikiki.

"While Duke Kahanamoku comes of a very fine Hawaiian family, he has no claim to a title of any sort, except that of champion swimmer," says a New York writer.

"We may be able to shed a little light on the subject of the duke's royal lineage and the origin of his title. Some years ago, when Kahanamoku came here for the first time and swam in the New York Athletic club tank, we watched the bronzed Kanaka with great interest. We were sitting next to

Duke Kahanamoku.

one of the Withingtons of Harvard—who had come from Hawaii. Withington had come all the way from Cambridge to see the duke swim.

"What is Kahanamoku the duke of?" we asked Withington, and he laughed.

"He is the duke of Waikiki," he replied. "He has no ducal domain other than the surf at Waikiki. You know Waikiki is the Covey Island of Honolulu. Kahanamoku was bred in the surf and first earned his living and came to prominence as a surf rider for the entertainment of the tourists. He became a general favorite and somebody nicknamed him the duke of Waikiki. In time he became just the duke. His real first name is Pahi."

American Game Making Rapid Strides in Far East—Centests Draw Large Crowds.

While we have been hearing so much about the advance of baseball in England, France and Italy, don't forget that another one of the allied countries also is hearing it. A newspaper man recently arrived in this country from China says thousands of Chinese are playing the game and that the contests put on in Shanghai often draw more than five thousand persons. If there ever to be an international world's series, this newspaper man, whose name is Graham Barrow, says China wants in.

CHALLENGE FROM JIM RILEY

One-Time Champion Oarsman, Now Past 70 Mark, Wants to Row Any Man in World.

Jim Riley, whose name was famous 40 years ago in the rowing world, is out with another challenge. The one-time champion, now past the seventy mark, although he looks hardly more than sixty, will row any oarsman in the world who is sixty-seven years or older any distance from one to three miles. He won't concede any handicaps, but he will take all comers, and so confident is he that he can defeat anyone who tries to row against him that he will put up the cup which he won 35 years ago as a trophy. He is particularly anxious to meet Jim Ten Eyck, the elder, who was coach of the Syracuse university crew up until a few months ago, and is now engaged in a similar capacity at the Duluth Boat Club.

When You Fight--Fight

FIGHT as these American soldiers fought in the streets of Fismes. "They covered themselves with glory," the papers say. Of course they did—they are Americans.

They met the finest of the enemy's troops in a terrific hand-to-hand struggle. They used their guns—their bayonets—their bare fists. Every American soldier went after his man desperately, fearlessly, persistently, with one great driving purpose—to whip that Prussian Guard, to silence its machine guns—to win!

It's a pretty good way to fight—this American way. It wins battles over there, it will win a splendid victory over here—if we fight when we fight—if we buy Liberty Bonds to our utmost.

When you fight—fight! When you buy—buy!

VICTOR ROUSSEAU

Mark responded with a movement of the head. It must have been a fight, to have brought all those serious cases down to the base hospital.

"Weston, you're to go into the operating room!"

The nurse who addressed him spoke as to a servant.

"Yes, Sister," he answered, and braced his shoulders and hurried to obey.

The patient, already etherized, had been brought in. Mark, watching the patient narrowly as the surgeon probed the wound, knew nothing but his task until the surgeon nudged him familiarly in the side while one of the nurses was sponging his forehead.

"I know your face, orderly," he said. "Where was it?"

Mark started and looked into the quizzical gray eyes of one of the army doctors from an Arizona town, whom he had dined at the mess.

"I think you are mistaken, sir," he answered quietly.

The surgeon searched his face, and, like a decent man, admitted his error.

"Another poor devil gone down," he thought, as he turned to his work.

There were three more operations following, and Mark sighed with relief as the last man was carried away. He took a scrubbing brush and bar of soap and knelt down to clean the floor, while his fellow attendant scoured the splashed table and carried away the towels.

Mark was conscious that the nurse still lingered, and he went on with his scrubbing. Somehow he did not want to meet her eyes.

She came forward and stood near him, by the table. Something splashed down to the floor—then something else. Mark raised his head. They were tears, and others followed them down the nursing sister's face. The girl was Eleanor.

She put out her hands blindly. "Oh, Captain Mark!" she whispered.

Mark felt himself beginning to shake; fate seemed to have played a wretched trick on him just then.

"Why, Captain Mark! Why—why did you do this?" asked Eleanor.

"Hey, Weston!" called his fellow orderly from the door of the sterilizing

She gasped and grew red; he saw that his arrow had gone home, and went on pitilessly.

"When I was at your reception you had smiles for everyone."

"That's enough, Captain Wallace," she said, with an indrawn breath. "You insulted me the last time we met, you know, or probably have forgotten. I—I see that all my thoughts of you were wrong. I was always a burden. And when you didn't write so many years, and when you didn't come to see me, I thought—oh, I'll tell you now, since you have humiliated me as deeply as it is possible to humiliate a woman. I thought you stayed away and kept away because you liked me, and because you were afraid that I might come to care for you, and ruin my prospects among the rich young officers. I thought it was a sort of absurd, misplaced, quixotic chivalry, Captain Wallace."

Wallace was choking. So she had known!

But he had won his miserable game, as he realized from her next words: "It was a foolish idea, Captain Wallace, and now I've given it up, and I know that men aren't so idealistic and chivalrous as I have imagined them. But"—she bent forward—"I don't believe you are a traitor, Captain Mark!"

And over her head Mark saw the tall figure of Kellerman in the doorway.

The recognition was mutual and instantaneous. Kellerman's surprise was changing into a sneering challenge when Eleanor turned, saw the newcomer, and, with a superb effort of will, smiled at him.

"So I see you got here, Sister Howard," said Kellerman, with a forced laugh.

"Just in time," answered the girl. "Have you come to order us all up to the trenches?"

"Some of you, but not the ladies. No, I'm attending the General on his tour of inspection of the lines."

The talk grew indistinct as they drifted away. Mark, starting after them in a stupor, saw Kellerman nod toward him, and fancied that the girl made a gesture of pleading.

Neither had noticed him. He reflected savagely that already Eleanor was coming to take his status for granted, as the other sisters did.

CHAPTER XI.

By evening the rush of work had died down, and the orderlies, save those on duty, were given the customary leave.

Leave meant Etaples, with its comfortable little inn, the chatty landlady and her pretty daughter.

Mark strode toward Etaples. He had an intense longing for the lights and comfort of the little inn. But he had not gone more than a hundred paces when Hartley halted him.

"Going into Etaples?" he asked. "Do you mind my going with you?"

"Frankly, yes, Hartley," answered Mark. "You won't mind my saying so? I want to be alone after—"

"I know, old man," said Hartley, drawing back. "Sorry if I bothered you."

But Mark swung round on him. "Hartley, answer me one question," he said. "What has Miss Howard ever had to do with you? Why have you been watching her for six or seven years?"

Hartley began to walk along the road at Mark's side. He made a curious gulping sound before he answered.

"Has it occurred to you, Mark, that the Kenson woman has been operating in Washington for a good time now?" he asked.

"I suppose so," Mark answered.

"You know everything was prepared for years before the war began. The system had ramifications in every department of the government. You know Colonel Howard was in touch with it as far back as the Cuban war?"

"Good Lord, yes, but—"

"And a man is only a pawn in such a game. Good God, don't question me, Mark! I've been a tool of hers, but I'll swear that I never worked against the government. I learned little by little of the whole accursed nest of spies. I obeyed their orders because—well, I can't tell you now—but I worked against them too. I've done them more harm than good. I had my motives—selfish ones, despicable, perhaps; but I was never a traitor. Good God, Mark, haven't you seen how your faith in me has begun to make a man of me?"

Mark took Hartley's hand and gripped it. It was the best and the only possible answer. In their tacit understanding they went on toward the inn together.

Outside the inn they saw an auto, with a soldier chauffeur in charge. Hartley gripped Mark's arm.

"Do you know whose that is?" he whispered. "Kellerman's!"

The landlady came to the door. "Bonsoir, messieurs," she said smiling. "This way tonight, if you please."

She led them round by the side, into the kitchen, where they found half a dozen privates drinking light wine and teasing the landlady's daughter as she served them.

There was nothing in this to the men; they were often turned out of the dining room-parlor when officers put in an appearance. But this was Kellerman! Mark looked at Hartley and saw intense excitement on his face, which he was trying most evidently to restrain.

Boy Scouts Show Grown-ups How To Raise Corn.

The Boy Scouts of Washington, D. C., not only have made two ears of corn grow where one grew before, in the fields about the Nation's capital, but they have made as many as five, six and seven ears grow where none grew before. Enlisting as regulars in the great Food Conservation army of the Food Administration, they planned and planted their crop unaided.

The crop which they gathered from the reclaimed mud-flats of the Potomac, in particular, is worthy to be representative of the efforts of the nation.

Visitors from all over the United States and the whole world who have driven and motored in Potomac Drive, known as the "speedway," back of the Monument, have wondered all spring and summer about the beautiful corn crop which nodded in the breeze from down the river. Who planted it, whose was it, and who was going to take it away, were daily questions asked of the chauffeurs and cabbies who plied the visitors about. Very few knew the answer to all of the questions, but now there is no need to ask them.

A perfect swarm of small persons in khaki, replicas of their officer brothers across the sea, are flocking into the corn fields and stripping the tall stalks of their juicy burdens.

The Boy Scout Food Administration regulars are way up and "over the top," when it comes to growing corn.

The Task Before Us

The Treasury of the United States has a great deal of money to raise. It cannot be raised by bankers alone.

The rich of the country cannot do it alone.

The men of the country cannot do it alone.

The women of the country cannot do it alone.

But all of us—people of the United States—disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right, determined to vindicate the majesty of American ideals and secure the safety of civilization—can do a great and splendid share in the work we are called upon to do.

**INDUSTRIAL ADVISORS
WILL ASSIST THE DRAFT
BOARDS PROTECT LABOR**

In Order That Essential War Industries May Not Be Depleted of Men for Military Service.

Industrial advisors who will present facts and data to district draft boards on which deferred classifications will be given to men of military age who are engaged in war production are being selected. Three advisors will be chosen for each district board one by the Department of Labor and another by the Department of Agriculture. The third advisor will be chosen by the first two. Under regulations that have been issued for the work of the local and district draft boards these advisors will have access to the questionnaires that are filed by the men on the registration lists, and will confer with employers and executives of industries and enterprises that have been given preference on the War Industries Board on the priorities list recently made public.

Arrangements are being perfected

now through which the advisors will cooperate with the Federal Employment Service, the War Industries Board and the Railroad and Fuel Administration in the consideration of exemptions. They will be supplied with lists of the War Industries Board and other documents necessary to determining the essentiality of production and workers.

This information will enable them to decide upon broad general policies that will be pursued in connection with large groups of industries or farming activities in communities and districts.

Claims for deferred classification whether they are filed by the registrant or by employers will be forwarded by the industrial advisors to the local draft boards having jurisdiction in the district where the registrant has his home. Inquiries will be made by the local boards and their recommendations and certifications will be awaited by the industrial advisors and the district draft boards.

The chief factor in the consideration of claims for deferred classification is that the war industries—those named in the preference list of the War Industries Board including coal mining and coke making—are to be protected against depletion of their essential workers. Maintenance of the industrial army at home is considered a necessary part to high efficiency by the men in the field and on the firing line.
